**Important notes BEFORE you consider breeding your mare :**

- Dynamik Stallions strongly recommend that you have your mare scanned at your breeding veterinarian prior to purchasing a service fee in order to assess the mare's breeding soundness.
- It is strongly recommended to have a uterine culture prior to breeding to ensure that the mare has no underlying infection that will prevent the mare from becoming pregnant. This will save you from wasting semen collection fees and transport fees.

**Quality of Chilled Semen :**

All of the Dynamik Stallions standing at public stud have excellent motility and fertility with excellent progressive motility for chilled transport of semen. All the stallions are between 80 and 100 percent motile upon collection throughout the breeding season.

**Chilled Semen is available Australia Wide :**

The chilled service fee allows for a total of three (3) collections. These collections can be used for the curation of the current and following breeding season ONLY if the mare fails to achieve a pregnancy on the first insemination.

**Chilled Service Fees :**

Chilled Service fee per stallion for up to three (3) collections per stallion - \$2,200 inclusive of GST (TOP DER DA, TRUSSARDI D, NUMERUS CLAUSUS and GOLDEN WEST NRW) and includes LFG.

- Progeny may also be eligible Part Arabian and Australian Pony Stud Book

Although sadly he is no longer with us, Don Philino lives on in over 60 progeny here in Australia as well as with sons and daughters in Europe.

Don Philino was born in 2003 and was by the Premium stallion Dressman I and out of the mare Philine who was by the Hanoverian stallion Luxor. He had an outstanding performance record in Germany where he was awarded Champion of his 30 day stallion performance test with a dream overall score of 8.77 and a Premium title.

Don Philino was awarded a Silver Medal as the Reserve Bundeschampion of Dressage Ponies at 3 years old, was a Bundeschampionate Dressage Pony Finalist as a 4 year old, qualified for Carriage Driving as a 5 yo and was also a finalist as a 5 yo Dressage Pony ridden by a 14 yo.

He was purchased by Dynamik Stallions in 2007 and imported to Australia in January 2008 as the first fully licensed German Riding Pony Stallion to stand at public stud.

He won and placed consistently at Elementary, Medium and Advanced level dressage against open horses and was training at FEI with an established piaffe and passage tour. Sadly his competition career ended in 2013 due to medical complications which caused him to go blind.

Don Philino was laid to rest in September 2016. We are happy that his legacy will live on through his progeny as the foundation stallion for the German Riding Pony in Australia.

*Don Philino WE is the sire of 2 Elite and 6 Premium foals in Australia with progeny competing in dressage, showjumping and eventing.*

*He is the sire of a National Young Pony Champion and a State Young Pony Champion in Australia, a World Cup Harness winner, a finalist in the Bundeschampionate and an ASPR Breeding Crown mare.*

# Top Der Da

**Bay Imported German Riding Pony**

**DOB 1st March 2006**

## **Germany**

- Fully Licensed for Westphalia completed via competition DE441411949806

Top Der Da has been awarded champions, wins and places including places at State level from Preliminary to PSG. He has won leader board annual events and was awarded first place at Advanced level dressage, at the Masters of Dressage Competition with International FEI 5\* Guest Judge, Stephen Clarke.

This stallion is a great type with excellent hocks and passes on his cadenced trot and huge walk through to his foals. He is an ideal stallion for creating a modern looking horse with a longer leg and length of rein. He is proving to be a good option to downsize as well as modernise taller warmblood mares and upgrade the movement and power for smaller pony mares. Despite the fact that Top Der Da is over pony height, his pedigree shows smaller genetics behind him.

The progeny of Top Der Da are renowned for having sweet and soft characters and are extremely willing and uncomplicated to ride.

Just like his sire FS Don't Worry, Top Der Da is producing some exceptional mares who have bred on to produce top performing progeny.

*Top Der Da is the sire of 1 Elite and 4 Premium foals in Australia.  
He is the sire of a Belgian National 6 yo Young Pony Champion, Champion Show Horse and Show Hunters in Australia and is becoming a top sire of brood mares following in the footsteps of his sire FS Don't Worry.*

Numerus Clausus was awarded the Champion Premium Licensed stallion of 2016 with a dream score of 10 for his trot. It is very rare at a licensing to have all five judges award a score of 10, an absolute dream come true. Judges commented that they had never seen a stallion trot in such an elastic and spectacular fashion, yet remain so relaxed and well behaved.

Clausus was awarded a score of 9 for overall impression. He was also awarded a Gold Medal from the German National Federation (FN). These medals are rarely presented and are only awarded to high scoring stallions of special quality.

After standing for only one season in Germany, he now has three licensed sons.

In Australia in 2020, 9 out of 10 foals were assessed Elite with 3 of these foals being awarded "Golden Foal" awards by the Westphalian Verband.

# Dynamik Greta Garbo

**Palomino German Riding Pony cross**

**DOB - 10th October, 2017**

**Height - 14.0hh (142.2 cms)**

**Sire - Golden West NRW (Imp) Dam - Leedale Leilani (x Don Philino WE (Imp))**

**Registered - Australian Sports Pony Registry**

Dynamik Greta Garbo is an exceptional type with an adorable character. With her loose, expressive gaits and swing in the back this golden filly is a top quality GRP.

Her dam, Leedale Leilani is owned by Dynamik Stallions is by our now deceased foundation stallion, Don Philino (x Dressman I x Luxor). Don Philino himself was a highly successful and versatile stallion and Leilani shows many of his qualities in her type and character. Her first foal by our own Golden Rock was graded Elite and is now under saddle and looking at a successful future with super movement and exceptional type.

The opportunity arose to breed to Golden West, a double Gold Medallist of the Bundeschampionate and World Young Horse Bronze Medallist. Golden West semen was imported from Germany for one season only. He shares the same sire as our own Golden Rock in HET Golden Dream and his dam sire is Golden Moonlight. Golden West is described as a "genius of movement and swing" and this is now combined with Don Philino's German National success of a Gold Medal in carriage driving and a Silver Medal in Dressage.

Greta was assessed on the 2018 ASPR National Assessment Tour and was awarded a Premium title and was only one percent off Elite. She scored excellent marks for her conformation including 9 for her head, 8.5 for neck and 8 for overall type. She scored 9 for her walk but then decided to play a game of 'Bambi' when it came time to run out for her trot and canter scores. Greta spent the whole time bouncing up and down looking at herself in the mirror, much to the amusement of spectators! Despite not showing off her true paces we look forward to her going under saddle and showing her three super paces.

Greta had a light start under saddle at Stella Equestrian in Spring 2020 and proved her exceptional temperament and great paces.

She is now in foal to Numerus Clausus and is due early October, 2021. She will be put back under saddle in early 2021 for a short time before returning to our broodmare facility.
