# Dynamik Stallions

**Dynamik Stallions** is a German Riding Pony Stallion Station located in Western Australia. Primarily, I decided to import these stallions as my personal dressage mounts as I was looking for a smaller sized horse with dynamic movement to suit my petite size.

I started to look at what warmbloods were available in Germany in the smaller height range and stumbled across the German Riding Pony. In 2007, I travelled to Germany with the aim to buy my first stallion.

Don Philino was the first licensed GRP stallion to stand at public stud in Australia in 2008, bringing a new dimension to sports pony breeding. He had a dream score of 87.7% for his 30 day stallion testing, was awarded a Silver Medal at the Bundeschampionate in dressage as well as two finalist placings and was also the Bundeschampion of Carriage Driving. He had huge success in both Germany and Australia in competition and proved himself to be a top stallion who was extremely talented and versatile.

It was Don Philino who created my ongoing addiction for the German Riding Pony breed and led me to importing more licensed GRP stallions. It is such an honour to have owned Don Philino as a foundation stallion in Australia as he was so multi-talented with a phenomenal character. He was training all movements up to Inter 1 and had wins up to Advanced level dressage in open fields. Sadly, Don Philino was laid to rest in September 2016.

There are currently only limited frozen semen stocks available given his unexpected death. We are certain that his legacy will live on with his amazing successful progeny in both Germany and Australia. With Don Philino came the pedigree of Dressman 1 who stamps looks and type heavily throughout the generations. The Dressman I progeny have great success in competition with Dressman I ranked 9th in the FN for 2018 out of well over 2,000 stallions for offspring lifetime competition earnings. He has 37 licensed sons and 26 State Premium daughters.

Top Der Da was the second stallion that I imported as a three year old licensed Westphalian Stallion. He stamps his progeny with a willingness to please, great rideability and he passes on his big walk, expressive trot and elegant type. Top Der Da brings some important pedigree to Australian breeders with FS Don't Worry and Dressman 1 being some of the most influential and successful producing stallions in the history of the breed to date. Whilst this pedigree might not be as modern as some, these are exceptional sires that are still proving to be producers of top ponies in both national and international sport. FS Don't Worry himself is known as the "Donnerhall" of the German Riding Pony. He has 83 licensed sons and an incredible 84 State Premium daughters.

D'Artagnan was purchased as a foal by Dynamik Stallions and we were thrilled when he went on to become the Reserve Champion stallion of Weser Ems in Germany at his licensing. He was sold at his licensing.

Our highly successful stallion Golden Rock was also purchased as a foal at the same time as D'Artagnan and is a great success story himself. Purchased at 4 months of age, he went on to become the Reserve Champion of the Westphalian licensing in a very strong year. He was undefeated the entire year leading up to the Bundeschampionate where he became a finalist as a three year old in dressage before being imported to Australia. Golden Rock brought new bloodlines to Australian pony breeders with his sire HET Golden Dream having produced a huge number of successful sports ponies, 14 licensed sons and 10 State Premium mares. The introduction of the HET Golden Dream pedigree brought to Australia a whole new level of athleticism and expression.

Breeders will see the important lines of Bavarottie and Black Boy in the pedigrees of many successful licensed sons and national champions in sport which are in Golden Rock's dam line.

Golden Rock has not only produced several finalists in dressage and jumping at the Bundeschampionate in Germany, he is also the sire of both of the National Champion 4 year old ponies at Dressage With the Stars in Australia for both 2018 and 2019.

Golden Rock's travelling companion to Australia was the Premium licensed Westphalian stallion Trussardi D. This cool man was purchased by Dynamik Stallions after he won a Bronze Medal at the prestigious Bundeschampionate as a 3 year old. The following year both Golden Rock and Trussardi D were the Westphalian State Champions for their age groups. Trussardi went on to win yet another Bronze Medal at the Bundeschampionate as a 4 yo.

Trussardi is a highly decorated stallion with a fantastic pedigree to offer to breeders with his sire being the Rheinland stallion, Timberland. Trussardi and his sire are both renowned to produce progeny that are uncomplicated, brave and rideable sports ponies with powerful and very correct gaits. Timberland progeny have continued to be successful at the Bundeschampionate time and time again as well as in FEI pony sport. His dam sire, Dschingis Khan was an Arabian sire imported to Germany to help refine ponies and warmbloods in the development of the breed.

Sietlands Quincy was also purchased as a foal and shortly after became the Reserve Champion at the National German Foal Championships Foal in Lienen in 2012. He was awarded the Champion Premium Stallion of the 2014 licensing for Brandenburg and was also approved in Stallion Book 1 for Westphalia. He has outstanding paces and rideability. He is now sold to a top home in Germany, for a junior rider to compete in dressage.

Numerus Clausus was purchased at the Ponyforum Sales Auction in 2014 as the top priced foal in a collection of 80 foals. He is the image of his Bundeschampion sire FS Numero Uno. Presented in October 2016, Numerus Clausus became the Champion Premium Stallion of Hessen with 10 for his trot and 9 for his type. His quality was acknowledged with a prestigious and rarely awarded Gold Medal by the German Federation at the licensing for not only his extraordinary movement, but for showing a super character and relaxed manner. He is also approved for Weser Ems and Westphalia. The pedigree of his sire, FS Numero Uno is spectacular, as it is laced with highly successful sports ponies who are top producers themselves. Numerus Clausus offers Australian breeders a modern type of sports pony with outstanding expressive paces, without compromising temperament and rideability.

Gentle Gold is our latest stallion prospect and was purchased at the Ponyforum Auction in Germany in 2018. This young colt has such natural charm and a sweet character. There is no denying the quality of this colt with his uphill way of moving and exceptional elasticity and swing. He has excellent freedom in the shoulder joint and combined with his elastic body he has a big walk, cadenced trot and uphill canter. At 6 months old Gentle Gold was presented to the breeding director of the ZFDP, Mr Britze who awarded him with a Premium title and an overall score of 8.5. This young colt has a rich depth of breeding for top sports ponies boasting many well known pedigrees, yet also gives some new lines that we hope will be available for Australian breeders in the future.

Gentle Gold's sire is Holsteins Gentleman, a stallion known for his ability as a sports pony, himself having success with several young riders in the saddle through to Advanced (S) level dressage. Gentleman has produced several offspring that have had success at M (Medium/Advanced) level dressage and is by the well known, top producing sire FS Golden Highlight. FS Golden Highlight was the outstanding winner of the 1999 Rheinland stallion licensing and went on to become the winner of his 30-day testing. He was twice awarded a Gold Medal as Bundeschampion in 2000 and 2001. He had further success to L level dressage and has produced 22 licensed sons and 11 State Premium mares to date. There is no doubting the progeny of FS Golden Highlight being successful with the recordings of the prize money and winnings that they been awarded in sport.

This pedigree also extends back to the celebrated lines of Golden Dancer and Power Boy.

Gentle Golds dam Moonflower is by Baumann's Garfield who has to date produced a licensed son and five State Premium mares. He has produced a large amount of progeny with success in sport at L (Elementary) level dressage. Moonflower's dam sire needs no introduction being a well-known top performance pony and producer himself, Golden Dancer. Golden Dancer himself was four times the winner of the European Championships.

Such an interesting combination of pedigree filled with sports pony success.

It is planned that Gentle Gold will be prepared for licensing in 2020 and if successful will be available to breeders in Germany via chilled and breeders in Australia via frozen semen in 2021.

**Golden Rock**

**Trussardi D**

**Sietlands Quincy**

**Numerus Clausus**

*Julia Puckert*

Now in 2019, breeders in Australia will come into more luck with the importation of Golden West NRW. In pony sport in Germany and the USA this stallion needs no introduction with his excellent record of performance. Despite his youth, he has not only proven himself in young horse classes but has all the makings in his training to be a super FEI sports pony. Golden West was the Reserve Champion of Westphalia at 3 years old and was the Gold Medallist at the prestigious German National Young Horse Championships, the Bundeschampionate as a 3 year old. Continuing his success, Golden West was the Bundeschampion again as a 4 yo. There was no denying that he deserved the Gold medal after scoring 9.5 for trot, 9 for canter, 9 for walk and a 10 and 9.5 from the guest riders. In 2016, he was awarded the Bronze Medal for 5-year olds at the WBFSH World Championships for Young Dressage Ponies. He then gained a Silver Medal at the Bundeschampionate as a 5 yo. Standing at stud for a season in California, USA, Golden West was the US Pony Cup National Champion at L (Elementary), M (Medium) and S (Advanced) levels.

Golden West shares the same sire as Dynamik's Golden Rock, HET Golden Dream, who needs no introduction in the world of top class sports ponies having produced multiple licensed sons, State Premium mares and top sports ponies.

The beauty of his pedigree shines with his dam, Golden Maybe who is also the dam of the multi-champion licensed stallion, Diamond Touch who is a small stallion with a whole lot of movement.

Her sire FS Golden Moonlight has also been of great influence in the development of GRP sports ponies, producing many licensed sons and state premium mares. His progeny have had a multitude of success in wins and placings in top sport.

Golden Maybe's dam, St.Pr.St Gina was bred by Hesselteich stud and she was successful in many end rings in mare shows all over Aachen as well as a Champion of Westphalia. Gina's sire, Going East was a hugely successful international level pony stallion who had much at CDI's on the European circuits with different young riders and was bred by Boenniger Stud.

Golden West is the only pony or warmblood stallion outside of Germany to be awarded the prestigious NRW title for his outstanding success and high standard of progeny he has produced.

I feel that the German Riding Pony has a lot to offer and will continue to make a tremendous impact on all disciplines of competitive riding here in Australia. With their outstanding athletic ability and expressive gaits these ponies will be able to help our young riders get a better feeling from their mounts and learn to ride big movement so that their transitions on to a larger warmblood mount will be a much smoother one.

The Dynamik Stallions are suited to breed quality ponies with excellent movement and temperaments. They can also be bred to downsize warmblood and thoroughbred mares to create small riding horses with competitive paces. Our stallions are available via AI frozen and chilled, Australia wide. We also breed a small number of quality GRP foals each year that are offered for sale.

All my stallions have proven progeny and I am happy to talk to prospective breeders about finding the best match for their mares. I have ridden countless GRP stallions in Germany during my visits and have a solid knowledge of GRP pedigrees.

Breed Your Future Star In a Smaller Package!

Best wishes,

Kristy Jarvis

Gentle Gold

Golden West NRW

# The Dynamik Stallions are powered by HYGAIN Feeding Champions

The Dynamik Stallions are fed HYGAIN Trubreed and HYGAIN Release to meet their extra energy requirements to cope with the demands of being breeding stallions and performance horses.

The Dynamik broodmares and foals are raised on Hygain Trubreed or Hygain Grotorque. Top nutrition is invaluable for our mares to be in top health to become pregnant and meet the needs to provide for their foal whilst in-utero and at foot. Our youngsters rely on balanced nutrition for their growth and development.

Hygain Fibressential is a super product that ensures the horses fibre needs are met without the concern of high sugar or dust that can be an issue when feeding chaff.

Fibressential is a total chaff replacer and is fed in addition to your horse's premixed feed or grains. You only need to feed one third of the volume of what you would feed of chaff and it can be fed wet or dry. We love this product and will never feed chaff again.

Hygain Regain is essential for optimum health in performance horses to replace electrolytes lost through sweating.

Hygain Gleam, we love to use this product after the horses are clipped. We use this products for 30 days and it helps to restore the colour and helps a dry clipped out coat regain it's lustre.

# Dynamik Stallions

## Breed Your Future Star In A Smaller Package

### Fully Licensed German Riding Pony Stallions available here in Australia

We have put a lot of time and research into selecting our top quality stallions to ensure that they have excellent temperaments, movement and conformation. We are very lucky that we have not only been able to source stallions that meet all of these criteria but also that we have been able to import some of the most sought after and proven bloodlines that this breed has to offer. All of our breeding stallions have been radiographed at their stallion pre-selections as two year old and once again before being imported to Australia and they all have clean radiographs and are OCD free.

All of the Dynamik Stallions are proven sires and were bred in Germany before importation. Our stallions all have excellent fertility and motility and are all available Australia wide with chilled semen and frozen semen. Feel free to contact Kristy if you wish to discuss further which of our stallions would be the best possible match for your mare. There are downloadable breeding contracts on our website under the "breeding contracts" link outlining all the conditions of breeding as well as providing information for preparing your mare.

Our stallions are used to produce amazing moving pony dressage prospects and to downsize warmblood or thoroughbred mares to create the perfect mount for small adults and children.

**Our stallions are available for viewing by appointment**

**The next Dynamik Stallions Open Day is planned for March, 2020**

## History of the German Riding Pony

The German Riding Pony breed or "Deutsches Reitpony" began around 45 years ago. The breeding goal behind these ponies was to develop a horse with movement that is correct and rhythmic with elastic and expressive gaits. They were developed to produce a horse with sound temperament and rideability with the athletic ability for national and international competition and that they could be easily ridden by a child or small adult in the performance arena.

Using the same principles as warmblood horses, the breeding program began with imported Welsh and English ponies to be bred with different breeds of European regional ponies. Over time Arabs and Thoroughbreds were crossed as well as Trakehner and Hanoverian sires improve the breed. The result has been that these ponies have become very competitive in the fields of dressage, eventing, jumping and driving. They have the willingness to perform and dynamic movement to match.

The German Riding Pony is a type that is recognised as meeting the desired breed standards and traits once they have been assessed by the German breed associations. All foals in Germany are sighted and registered by the relevant GRP association in their region and are branded and granted a birth certificate. All stallions in Germany must undergo a process to become licensed which starts at the age of 2.5 years. If they are successfully licensed, these stallions must also fulfill other requirements by the end of their 5<sup>th</sup> year in order to retain their breeding license. Mares also have the opportunity to be tested to prove their value as breeding mares if the owner chooses to do so. The mares can achieve the title of State Premium if they meet the requirements and scores. The compulsory stallion licensing system and the opportunity to have foals and mares assessed helps to keep the breed standards high and the GRP true to type.

The breed standard for these ponies includes a small head, large eyes, small ears, clean throatlatch, a long neck set well on the body with a pronounced wither and a long croup. They are bred for horse-like movement that is correct, rhythmic and elastic with a long stride, expressive gaits and clear impulsion from the hindquarters. Many consider them a smaller version of a warmblood horse with pony character, charm and intelligence.

The ultimate breed goal for these ponies is to be under 148cm but of course, like some of our Australian Pony breeds, they can grow over pony height. They are still considered to be a "German Riding Pony" as far as their breed if they do go over pony height. Their background and genetics are of pony height and crossed with right pony mare with the correct genetics they can still produce a fabulous GRP pony. In Germany, there are many over height GRP's that compete successfully and make fantastic mounts for small adults. A fine example of this is the GRP stallion Percy Pearson who stands at 152cm and has been very successful at Grand Prix. He gained a 5th place in a Grand Prix that was won by Anky Van Grunsven.

Today's breeders use specific bloodlines to reliably create German Riding Ponies that fulfill the goal of a pony type who competes with the athleticism of a small warmblood.

# Don Philino WE

**Liver Chestnut Imported German Riding Pony (dec'd)**

**DOB 5<sup>th</sup> of April 2002**

**Height : 150cm - 14.3 1/8 hh without shoes**

## **Germany**

- Fully Licensed for Weser-Ems with a Premium Title HLP8.77
- Approved for Hannover, Westphalia DE435350257002

## **Australia**

- Registered with the Australian Sports Pony Registry Inc Reg No 10303 (Elite Breeding Crown)
- Australian Continental Equestrian Group DE435350257002
- Welsh Pony & Cob Society of Australia Reg No PWS-2434
- Progeny may also be eligible Part Arabian and Australian Pony Stud Book

*Don Philino's lines boast the Hanoverian sire Lungau, who has produced an abundance of competition horses in Germany, including the international dressage horses Leonardo and Dugal. Lungau also presents in the lines of Anky Van Grunsven's 'Salinero'. Don Philino's blood lines also go back to the famous welsh line Downlands.*

*Don Philino's sire Dressman 1 was a very successful dressage pony and was the first pony ever to win the prestigious Bundeschampionate four years running.*

*Dressman 1 was the winner of the European Dressage Championships, three times German Pony Champion and the winner of his stallion licensing and 30 day test. He has over 30 licensed sons and 22 State Premium mares. Dressman 1 is known for making his offspring extremely rideable, which is a quality that Don Philino inherited with abundance.*

*Don Philino's dam, State Premium mare Philine produced, among others, the mare Philina who was Champion of the County Show in Aurich-Thannhausen 2007 and qualified for the Bundeschampionate and the Elite Mare Show in Weser-Ems, all at the age of three.*

# Don Philino WE

**Don Philino** had an outstanding performance record in Germany. He was awarded Champion of his 30 day stallion performance test in Neustadt Dosse with a dream overall score of 8.77 and a Premium title including a 9.13 for the cross country phase and 8.25 for free jumping.

He was awarded a Silver Medal as the Reserve Bundeschampion of Dressage Ponies at 3 years old, was a Bundeschampionate Dressage Pony Finalist as a 4 year old, qualified for Carriage Driving as a 5 yo with an outstanding score of 9 and was also a Dressage Pony Finalist with a super score of 8.2 ridden by a young rider.

He had many wins and places in jumping classes, dressage pony classes and young horse classes against warmbloods during his competition career in Germany.

He was purchased by Dynamik Stallions in 2007 and imported to Australia in January 2008 as the first fully licensed German Riding Pony Stallion to stand at public stud.

Don Philino performed in a Master Class with Micheal Schmidt of Germany as the guest rider horse for the talented German Bereiter Janina Kletke. They remarked that they were impressed with his super rideability and movement and stated that he was a “top class pony stallion”.

He won his first dressage test in Australia at Elementary level in open competition against warmbloods at the State Equestrian Centre and continued his success placing in every Elementary test that he competed in.

He was selected to perform in the Christoph Hess Masterclass. Christoph commented during the Master-class that Don Philino could be a top dressage horse for WA and possibly in Australia. He was highly impressed with his talent and kept him in the arena well over time.

In 2010 Don Philino traveled to Melbourne for Equitana to perform in two displays each day and he gained many fans with his endearing personality in the breed stables.

He placed consistently at Medium and Advanced level dressage against the horses. This talented little stallion was training at FEI with an established piaffe and passage tour.

Unfortunately his competition career was halted in 2013 due to medical complications from which he was going blind. Specialists have confirmed his condition cannot be passed onto his progeny (more details in the pdf info pack on our website.)

Just a few weeks after losing his vision completely, and only a week after having surgery, Don Philino allowed me to present him in hand on the lunge at our 2014 Dynamik Stallions Open Day and there was not a dry eye in the crowd.

Don Philino was sadly laid to rest in September 2016 only days after he was once again presented in hand to a crowd at our 2016 Open Day. Only very limited frozen semen is available. We are happy that his legacy will live on through his progeny as the foundation stallion for the German Riding Pony in Australia.

*A truly versatile stallion with a talent for the  
FES Tour and the ultimate in character*

## Progeny

Leedale Leilani was purchased as a broodmare for Dynamik Stallions and as a Don Philino daughter, is passing on to her progeny all of the qualities of her sire. She was awarded an ASPR Breeding Crown in 2018 from progeny results.

Envious Philino - ASPR registered GRP cross gelding won the 4 yo National Young Pony Champion in 2016.

Don Giallo is an ASPR registered GRP cross gelding who has been winning multiple Championships in the show arena.

*Don Philino WE is the sire of 2 Elite and 6 Premium foals in Australia.*

*He is the sire of two State Young Pony Champions, a World Cup Harness winner, a finalist in the Bundeschampionate and an ASPR Breeding Crown mare.*

KDH Lord Cromwell is an ASPR registered GRP cross gelding competing successfully in the dressage arena.

Duplo White (the little guy on the right) is a GRP gelding with a huge heart and super talent. He is part of a team of four International Driving horses owned by Rainer Duen who have had international success in the past few years including representing Germany in the World Cup for Driving.

TF Don't Ask - Elite ASPR registered mare and 2014 Qld State 4 yo Young Pony Champion. Out of imported mare Rosewater Driving Miss Daisy (x FS Don't Worry). Bred by Tamlyn Farm.

Don Peppino - Finalist in the Bundeschampionate, Germany

*FS Don't Worry won Bundeschampion two years running, receiving six scores of a perfect 10.*

*FS Don't Worry continued to be successful in his dressage career with multiple wins at Medium, Advanced, Prix St George and Inter I classes.*

*Top Der Da's dam is **Daria** by Dressman 1 (who is the sire of Don Philino).*

*He himself won the prestigious Bundeschampionate four years running and was the winner of the European Dressage Championships and three times German Pony Champion.*

*Daria also has the Bundeschampion sire Nantano in her bloodlines.*

# Top Der Da

Top Der Da was licensed in 2008 in Muenster – Handorf for the Registry of Westphalia.

With Top Der Da's competition success in sport, his scores and placings were submitted and he was granted full Licensing for Westphalia, Germany. He was fourth place at his first competition in Seppenrade, Germany with 79.2% in an Open Young Horse class.

Winner of the German Riding Pony Young Pony Dressage class and was the overall Champion of the day scoring 80.8% at his second competition as a 3 yo and third place at the young horse dressage class at Duellen Show in open classes against warmbloods.

Top Der Da has had much success in dressage in Australia in Open classes against warmbloods. He has been awarded champions, wins and places including places at State level from Preliminary through to PSG. He has been the winner of leader board annual events and was awarded first place at Advanced level (S) dressage, at the Masters of Dressage Competition with International FEI 5\* Guest Judge, Stephen Clarke.

Top Der Da grew over pony height quite early and was therefore unable to compete at his Bundeschampionate, despite qualifying. He stood at stud for one season in Germany and was very popular with the breeders because of his modern type, and power in the hind legs and the outstanding combination of pedigree with FS Don't Worry and Dressman 1. His first foal crop in Germany are now having success in competition with wins and places and dressage and jumping. His progeny have excellent rideability and are easily ridden by small children. A daughter won the title of State Champion Pony at D1 level in Belgium in 2017.

Top Der Da's Australian progeny are now under saddle and are also reporting exceptional rideability and movement under saddle. They are having success in breed shows and foal assessments with Premium gradings. A 4 yo son out of a warmblood mare has wins and places in open dressage including State Championship level. He has also had success in the show hunter arena with a reserve champion title. Other Top Der Da progeny are having success and winning championship titles in pony dressage in WA.

Top Der Da is a fantastic horse with an exciting future in dressage. This stallion is a great type with excellent hocks and is passing on his cadenced trot and huge walk through to his foals. He is an ideal stallion for creating a modern looking horse with a longer leg and length of rein. He is proving to be a good option to downsize as well as modernise taller warmblood mares as well as upgrading the movement and power for smaller pony mares. Despite the fact that Top Der Da is over pony height, his pedigree shows smaller genetics behind him.

The progeny of Top Der Da are renowned for having sweet and soft characters and are extremely willing and uncomplicated to ride.

*The ultimate in rideability and willingness and a super elegant type*

# Trussardi D

**Chestnut Imported German Riding Pony**

**DOB 19<sup>th</sup> April 2007**

**Height : 152cm - 14.3 7/8 hh without shoes**

## **Germany**

- Fully Licensed in Westphalia with a Premium title and Approved for Weser Ems, Hannover, Rheinland DE441410880607

## **Australia**

- Registered with the Australian Sports Pony Registry Inc Reg No 10307 (Breeding Crown)
- Australian Continental Equestrian Group DE441410880607
- Welsh Pony & Cob Society of Australia Reg No PWS-2430
- Progeny may also be eligible Part Arabian and Australian Pony Stud Book

*Trussardi's sire is the very successful dressage pony sire **Timberland** who was a triple Bundeschampionate finalist. Timberland has numerous wins and placings up to Medium level dressage. He is known for his excellent rideability, his elegance and his fantastic movement. These traits have been inherited by Trussardi himself.*

*Timberland is now becoming well known for his highly successful progeny in Germany. In 2004 his son Trentino was awarded Reserve Champion of his licensing and later was also a Bundeschampionate finalist. In 2006 he also had two sons Trocadero and Tivio licensed. Tivio was sold at the Westphalian Elite Auction in 2009 for the highest price. Timberland's gelding son Tesio was also the highest price pony sold at the Westphalian Elite Auction in 2010.*

*Trussardi's full sister Tammy Wynette was awarded Reserve Champion in Handorf 2005 and was awarded the Silver medal at the 2007 Bundeschampionate.*

*Trussardi's dam is **Disco Lady** by Dschingis Khan, a stallion imported to Germany and who shaped the breeding of Westphalian ponies.*

*Disco Lady's bloodlines also boast the Welsh line of Downland Fleet Foot (Sir) who had eight licensed sons including the famous stallion Shalom who was the grand-father of St. Pr Nadine, who is the dam of the multi-champion sire, Dressman 1.*

# Trussardi D

Trussardi D was awarded a Premium Stallion title at his licensing for Westphalia and is approved for Weser Ems as a Premium Class II Stallion. At his first competition start as a 3 year old he dominated the entire field with a score of 85.83% and continued this success at his second event in a strong field with the highest score for the day of 87.5% including 3 scores of 9 and 3 scores of 8.5.

Trussardi was awarded the Bronze Medal of the 3 year old Dressage Pony stallions at the prestigious national young horse event, the Bundeschampionate and at the Federal Stallion Show in Berlin, he was awarded Second Reserve Champion GRP breed section, Reserve Champion of the Jumping competition, Second Reserve Champion of the dressage competition and Reserve Champion of the versatility class making him the best performed 4 year old stallion in all of the categories.

Trussardi showed his reliable top form winning with the highest overall scores in his next Young Horse Show scoring 8.42 including 9 for trot and 9.5 for conformation. At Westfalen Woche, he won his Bundeschampionate qualifier with an impressive 8.58. He also dominated the entire 4 year old field gaining a score of 8.55 and being awarded Westfalen Champion. At four years old, Trussardi proved himself again as a top competition stallion winning the Bronze Medal once again at the Bundeschampionate.

At his first Australian competition he gained second place and continued to place against warmbloods at open Preliminary and Novice Level. He placed 6th in a strong field at State Dressage Championships.

Trussardi completed his licensing for Westphalia in Germany via a 2 day testing and was awarded the highest title of Elite by the ACE group and is now a fully licensed Premium stallion for Westphalia. He was also the Reserve Champion licensed stallion for the entire ACE Group Tour that year. He has many placings at open Elementary level and has also been very successful in jumping competitions with clear rounds and clear jump offs in 90 cm classes.

He has continued his success in open Medium and Advanced level with wins and places and was invited on to the State Dressage Development Squad.

Trussardi was invited to be presented at the Masters of Dressage Masterclass, which was presented by the FEI 5\* Judge Stephen Clarke, alongside our top Australian FEI rider, Brett Parbery.

He has continued on with placings at Advanced and Prix St Georges.

Trussardi was described in Germany as a "genius of movement". He combines his superb movement with a proud willingness to perform which is shown in his outstanding competition record. He has the most amazing front and neck and is an uncomplicated ride with the bonus of outstanding paces for dressage. Trussardi has put some exceptional quality foals on the ground in Germany with one of his foals awarded the Silver Medal at a foal show which allowed the dam to complete her State Premium Title. He also now has a licensed son for Westphalia in Germany.

His German progeny are now competing under saddle with excellent characters and riders state they are very easy to ride with powerful paces.

In Australia, Trussardi has progeny that have successfully qualified for Dressage & Jumping With The Stars (Australian National Young Horse/Pony Championships) with a son winning the 4 yo Young Pony Championship at the 2017 Sydney CDI as well as another son winning the 2019 Supreme Champion Young Pony award in New Zealand.

He has progeny that are now becoming successful in dressage and eventing. With numerous progeny now under saddle in Australia, we are thrilled that he is improving and creating a super uphill front for his foals as well as passing on his laid back, easy loving character. He can help to add power to the foals and create a longer elegant leg.

He is the perfect match for mares that may be sensitive and hot as he tends to level out the character of his foals. You can't go wrong with Trussardi progeny as they really show their true talent once under saddle and are easily ridden by children.

*Described in Germany as a genius of movement  
and he has a cool man attitude to match*

# Golden Rock

Palomino Imported German Riding Pony

DOB 2<sup>nd</sup> March 2008

Height : 150.2cm - 14.3 1/8 hh without shoes

Germany

- Fully Licensed for Westphalia with a Premium Title.
- Approved by Hannover, Schleswig-Holstein and Weser Ems with a Premium Class II Title DE441410418308

Australia

- Registered with the Australian Sports Pony Registry Inc. Reg No 10308 (Elite Breeding Crown)
- Australian Continental Equestrian Group DE441410418308
- Welsh Pony & Cob Society of Australia Reg No PWS-2429
- Progeny may also be eligible Part Arabian and Australian Pony Stud Book

*Golden Rock's sire is **HET Golden Dream** who is a Premium stallion in Westphalia and despite his size of barely 14hh, he later won his stallion performance test and the NRW Stallion Championships in 2005. He scored a fantastic 8.63 in his 30 day stallion performance test. In the same year he won eight young horse classes including three against warmbloods. He has had wins in dressage classes up to Elementary level.*

*Golden Rock's dam is State Premium Mare **Beauty Queen** whose grandsire Blackboy is one of the most influential foundation sires for dressage ponies in Germany.*

*Beauty Queen won numerous Elite Mare shows in Germany. One of her most famous sons is the licensed CGN Crocodile Rock who was the 3 year old Bundeschampion of Dressage Ponies in 2006 and was sold at the Westphalian Elite Auction for 110,000 euros in 2008.*

*A daughter of Beauty Queen, Lea by Leon was awarded a State Premium title. Another daughter Catlyn placed 4<sup>th</sup> in the Bundeschampionate finals in 2009 and 3<sup>rd</sup> place in the 2010 Bundeschampionate Finals with Henrike Sommer.*

*Beauty Queen's grand dam SPS Silvertop is the dam of five licensed sons herself. Now of course, the amazing mare St.Pr.St Beauty Queen has another premium licensed son with our very own Golden Rock.*

# Golden Rock

At his licensing in Germany, Golden Rock was awarded Reserve Champion Premium Westphalian stallion out of 83 stallions that were selected to be presented with his scores including two 9's. At Verden he was approved by Hannover and gained the Second Reserve Champion of the licensing with a Premium title and a score of 9 for his loose uphill trot. He was also approved for Weser Ems with a Premium Class II title.

He was the Champion of the free jumping competition for 3 yo's in Bad- Salzuflen, with an overall score of 8.4. At the Pony Meeting in Ludinghausen, he dominated the field winning his young horse class with an overall score of 8.5. He went on to win his next two young horse dressage classes against warmbloods. At Westfalen Week in Muenster Handorf he was the winner of his qualifier on a score of 8.33 and was awarded Westfalen Champion of all 3 yo's. with a very impressive final score of 8.71. At the Bundeschampionate as a 3 yo, he was a finalist scoring 9's for his canter in both rounds and also 9's for his type. The judges commented that he was a top class stallion with excellent musculature and quality movement.

He is a proven top breeding stallion with pony mares and has also produced top quality progeny over warmblood mares. He has several licensed sons now licensed in Europe from his first crop of foals and some State Premium daughters in Germany. At the Lienen National Championship Finals for foals, four who qualified were by Golden Rock from his first crop alone. Many mares sired by Golden Rock in Germany are now producing Champion foals including Gold Premium awarded foals and Lienen qualified foals. He has produced several progeny that qualified for the prestigious German National Young Horse event, the Bundeschampionate. Golden Rock has had progeny become finalists at the Bundeschampionate in both dressage and jumping.

His foals in Australia are stamped with great swing in the back and fabulous paces with some a number presented for assessment gaining Elite and Premium titles. He has progeny that have been winners at breed shows and his first crop are now under saddle with super temperaments and great movement. Already they are gaining wins and places in dressage and we are looking forward to the next season with more progeny entering the competition arena in Australia.

Golden Rock is a truly talented stallion with very athletic, expressive paces and finds collection very easy. He has super knee action and an active hind leg. He has a great piaffe with his active hindlegs and expressive flying changes. Golden Rock is known to improve the hock action on his progeny and create a better neck set and passes on the qualities of his active canter with the added bonus of colour and bling.

Golden Rock completed his licensing for Westphalia via a 2 day testing. He was awarded the highest title of Elite for the ACE group and is now a fully licensed Premium stallion for Westphalia. He was also awarded the Champion Licensed Stallion for the entire Australian ACE tour of 2014.

He was the Novice Champion at the WA State Championships and was 3rd place at the State Championships at Open Elementary. He held the title of Reserve Champion Dressage Horse of the Year, Uwe Spenlen award for WA sponsored by Hermitage Dressage.

Golden Rock has also competed in jumping competitions with super clear rounds to show not only his versatility but his outstanding jumping technique and athleticism.

For 2018, Golden Rock was ranked 19th for GRP stallions born between 2004-2014 based on prize money and success of progeny in competition. He only stood for one season in Germany so a fantastic result.

# Numerus Clausus

**Dark Chestnut German Riding Pony**  
**DOB 27th April, 2014**  
**Height : 152cm - 14.3 7/8 hh without shoes**

## **Germany**

- Premium Licensed, Hessen DE 463630001314
- Approved for Westphalia and Weser Ems

## **Australia**

- Registered with the Australian Sports Pony Registry Inc. Reg. No. 10475 (Breeding Crown)
- Australian Continental Equestrian Group 03600113270272285
- Welsh Pony & Cob Society Reg. No. PWS 2530
- Arabian Horse Society Reg./ No. PS25382

*Numerus Clausus's sire is FS Número Uno who has an impeccable pedigree filled with champion blood such as Noir De Luxe, Heidburgs Nancho's Nova and FS Don't Worry just to name a few.*

*A breeders dream, this stallion is of superior type and top rideability. His success includes Vice Bundeschampion at 3 years old, Bundeschampion at 4 years old and a finalist as a five year old. His 30 day test score was 8.31, a top score for a quality stallion.*

*His dam is Molenhorn's Andrea who has two licensed sons.*

*Her sire is Vito Nova's Golden Boris who has 13 progeny that are competing successfully up to Medium level and he has 6 licensed sons.*

# Numerus Clausus

Numerus Clausus was the top priced foal out of the 80 foals presented at the Pony Forum auction in August 2014. He has already had success placing 4th at the Federal Foal Championships in Lienen presented by the new owner of his dam Anja Maier.

This extraordinary foal was the clear standout in all aspects for a future stallion prospect. His type is super and uphill, he has a very friendly character and was totally relaxed in the auction atmosphere, He showed lovely swing in the back, expressive paces and cadence that one always dreams of.

He has a very successful pedigree that is now highly sought after both in Germany and in Australia.

Numerus Clausus was professionally prepared for his Hessen licensing on 1st October, 2016 by Philipp Bertels of Ausbildungsstall Bertels.

He was awarded the Champion Premium Licensed stallion of 2016 with a dream score of 10 for his trot. It is very rare at a 2 1/2 yr old licensing to have all five judges award a score of 10, an absolute dream come true. Judges commented that they had never seen a stallion trot in such an elastic and spectacular fashion, yet remain so relaxed and well behaved.

Clausus was awarded a score of 9 for overall impression. He was also awarded a Gold Medal from the German National Federation (FN). These medals are rarely presented and are only awarded to high scoring stallions of special quality.

Clausus is also approved for Westphalia and Weser Ems, Germany.

Numerus Clausus went to a young horse competition in Herbern, Germany with rider Wibke Hartmann-Stommel in July, 2017 and was the Champion of 3 yo's. He showed his dream character and paces under saddle.

Clausus has a large number of foals due in Germany in the Spring of 2018 and despite being over pony height himself, Clausus has smaller pedigree behind him and the majority of foals will remain at pony height.

Frozen semen is available from Hengstation Rohmann in Germany with a very high success rate on first insemination.

Numerus Clausus was awarded the State Champion title for Arabian Derivative stallion and State Champion Sports Horse at the 2018 Arabian State Championships. He won the same titles as well as WA High Point Senior Arabian Derivative Sports Horse in 2019.

# Golden West NRW

**Cremello German Riding Pony**

**DOB 12th June, 2011**

**Height : 147 cms - 14.1 7/8 hh without shoes**

## **Germany**

- Fully Licensed, Westphalia with Elite Title DE 441410705211
- Approved for Rheinland

## **Australia**

- Registered with the Australian Sports Pony Registry Inc. Reg. No. 10543 Elite Breeding Crown

*Golden West shares the same sire as Dynamik's Golden Rock, **HET Golden Dream** needs no introduction in the world of top class sports ponies having produced multiple licensed sons, State Premium mares and top sports ponies.*

*HET Golden Dream was premium stallion of his licensing in Westphalia and later won, (despite his size of barely 14 hands), his stallion performance test and the NRW-Stallion Championships of 2005 and was the 2005 Stallion Licensing test winner in Munster-Handorf.*

*Golden West's full sister, Golden Daydream FH, completed her mare exam with a grade of 8.2 and was the 2011 Champion mare. At the Westphalian Week she won the Bronze Medal and became Bundeschampionesse in the same year. Another full sister St.Pr.St. Desert Rose was also awarded the state premium title and Endringstute at the Elite Mare Show in 2013. She finished her mare performance test with a final score of 8.4.*

*The quality of Golden West is no coincidence as he is born from an absolutely secure and proven dam line. Verb.Pr. Mare **Golden Maybe** is half-sister to the licensed stallions Gandalf and A Gorgeous.*

*With Golden Dime she presented Golden West's licensed half-brother and incumbent Westfalen Champion Diamond Touch, who also won the Silver Medal at the Bundeschampionate in 2015 & 2016.*

*Golden Maybe's dam St.Pr.St. Gina was a Westfalen Champion mare and is by the winning stallion Going East.*

# Golden West NRW

In pony sport in Germany and the USA this pony needs no introduction with his excellent record of performance.

Despite his youth, he has not only proven himself in young horse classes but has all the makings in his training to be a super FEI sports pony.

Golden West was the Reserve Champion of Westphalia at 3 years old and was the Gold Medallist at the prestigious National Young Horse Championships, the Bundeschampionate as a 3 year old. Continuing his success Golden West was the Bundeschampion Gold Medallist once again as a 4 year old. There was no denying that he deserved the Gold Medal after scoring 9.5 trot, 9 canter, 9 walk, 10 and 9.5 from the guest riders.

Golden West proved his excellent rideability and character as he continued to stay in the top sports rankings with young rider, Julia Rohmann. In 2016, he was awarded the Bronze Medal for 5 year olds at the WBFSH World Championships for Young Dressage Ponies. He then gained a Silver Medal at the Bundeschampionate as a 5 yo.

Standing at stud for a season in California, USA, Golden West was the US Pony Cup National Champion at L (Elementary), M (Medium) and S (Advanced) levels.

He is the only pony outside of Germany to hold a prestigious NRW title from Westphalia.

Golden West's first crop of foals exceeded all expectations being beautiful in type and inheriting the movement mechanics, incredible dynamics and freedom of shoulder from their father. Many of his foals won with the highest scores at foal shows and qualified for the Federal Foal Championships in Lienen. One of his foals placed in the Top 10 at Lienen in 2018 with an end score of 89.17.

He is the sire of multiple licensed sons and State Premium mares. Including: Golden Mylight (BuCha Gold medal 2018 3yo mares/geldings) and Gabalier (Westfalen licensing champion 2018), Golden Soul (reserve champion Westfalen licensing 2017) Golden Unicorn ( Licenced in Redefin 2018 ) Global Champion (Reserve Champion Weser Ems Licensing 2018)

For his first two seasons, Golden West produced a total of 7 licensed sons which proves his status as a super pony sire. Golden West stamps his foals with his superior swing and elasticity, excellent top lines, medium bone and true pony heads! Golden West increases the uphill tendency and creates an elegant type of foals with all the true pony traits one desires.

2 Day HLP (Stallion Performance Test) Germany		
	Walk	9.00
	Trot	9.00
	Canter	9.00
	Rideability	9.88
	Jumping	7.67
	Overall Score	8.89

*A proven elite sire with exceptional mechanics, elasticity and swing*

# Angelica

**Chestnut Overo German Riding Pony cross**

**DOB : 5th September, 2013**

**Height : 14.2hh (147.3 cms)**

Sire - Trussardi D (Imp) Dam - Dakota

Breeder - Sarah Dolan, Sarlia Park, WA

Registered Australian Sports Pony Registry and Westfalen Verband

*Angelica is an excellent uphill type of mare, a trait stamped by her sire Trussardi D who is known to pass on a superb neck set and shoulder. With her correct conformation she is a dream pony type. Angelica has very correct paces with huge ground covering walk and trot and her canter shows her strength and power. She has a wonderful laid back character like her sire and is always very easy to handle and work with. Given that this mare is so heavily stamped by her sire, she is a super asset to the Dynamik Stallion's breeding barn.*

*Her sire, Trussardi D is a proven sire with successful progeny in Europe and Australia. He was Premium Licensed in Westphalia, Germany and was awarded an Elite title in his short test. He was the winner of two Bronze medals at the prestigious Bundeschampionate and has success in dressage up to PSG level and has proven jumping ability.*

*Angelica's dam was a super riding horse and also excelled in liberty work. She has passed on her overo markings to Angelica - one can never have enough bling!*

*Angelica's first foal, KDH Galina has met all of our expectations. Born in November, 2017 she is by Dynamik Stallion's Golden Rock (x HET Golden Dream x Bavarottie) who was the Reserve Champion Premium Licensed stallion of Westphalia and a super successful proven sire. KDH Galina was assessed Elite with 81.5% on the 2018 ASPR Assessment Tour. She has now been sold to a top sports home in the east of Australia.*

*Angelica's second foal is by Dynamik Stallion's Top Der Da, another imported and fully licensed Westphalian stallion with success in dressage including wins and placings up to PSG level. This filly exceeded all expectations, Dynamik Dynasty was awarded an Elite title for the Australian Sports Pony Registry as part of the 2019 National Tour. She is an elegant dark brown filly with the assessor commenting "this filly has a remarkable harmonic topline with huge swing and very active hindlegs. She has a wonderful head and eye, absolutely straight and perfect conformed legs".*

*Given that Angelica's first two foals have both received Elite awards at their foal assessments, we are looking forward to seeing what she produces with Numerus Clausus in late 2019. This foal will be offered for sale.*

# Leedale Leilani

**Liver Chestnut German Riding Pony cross**

**DOB : 14th January, 2010**

**Height : 13.3hh (139.7 cms)**

Sire - Don Phiino WE (Imp) Dam - Dakota

Breeder - Leedale Lodge, Western Australia

Registered Australian Sports Pony Registry and Westfalen Verband

*Leedale Leilani is one of the Dynamik Stallions broodmares and is a super pony type with very correct conformation and elastic swinging paces. Her sire is our foundation stallion Don Philino WE and she has inherited his top class temperament. Her dam Leedale Leia was a highly successful all-round pony in the fields of dressage, show horse and eventing.*

*Leilani's first foal for us is the palomino colt Dynamik Great Expectations and is sired by Golden Rock. This dynamic colt achieved an Elite title as part of the ASPR/ACE tour for 2013. He not only has a great body but shows very expressive and elastic paces and excellent character. In 2018 this golden pony met all of our expectations by winning the 4 yo Young Pony National Championship at Dressage & Jumping With The Stars. After being ridden by the guest rider, Dynamik Great Expectations was awarded Champion of Champions Young Pony for 2018. He was also the NSW State Champion Young Pony at the Sydney CDI and has been presented to high standard with his owner and rider Sancha Butler.*

*Leilani's second foal was another palomino colt by Golden Rock and is called Dynamik Golden Eclipse. Born on the 9th of October 2014 he is again a top quality pony type destined for success in both pony jumping and dressage. Once again, the elastic paces and excellent swing in the back is shown in this foal and he has a canter of exceptional quality. This foal has a totally unflappable character and loves people. Dynamik Golden Eclipse achieved a 1st Premium status at his ASPR assessment showing his superb canter and type. He was sold to a super home in WA and his new owner reports that his temperament is outstanding, and he lives up to his stable name of 'Cruz'. He is now progressing well under saddle and has achieved some great scores at Preliminary level dressage.*

*Leilani produced a super modern and elegant colt in late 2015 by our stallion Top Der Da, named Dynamik Dream Time. Dream's pedigree combines the very best of German Riding pony pedigrees including the legendary stallion FS Don't Worry and a double line of multi champion Dressman 1. Dream was purchased by a pony competition rider who already owns another pony by Top Der Da and he was started under saddle in late 2018.*

In October, 2017 Leilani produced a super golden filly by the double Bundeschampion stallion Golden West NRW. Golden West shares the same sire as our stallion Golden Rock, HET Golden Dream who has produced many top competition ponies in Germany. Golden West's dam is by Golden Moonlight, a son of the legendary Golden Dancer. Golden Moonlight is known for his excellent qualities as a jumping and dressage pony, not only through his own victories but also with the progeny he has produced.

This filly is named Dynamik Greta Garbo and has been retained by our stud with plans for her to go under saddle in late 2020 before producing a foal. With her excellent pony type and top class pedigree, she will be an asset to our breeding program. Greta received a Premium title with the ASPR National Tour and scored 81% for her conformation and a 9 for her walk. She is a super laid back and sweet filly.

As a daughter of Don Philino, a proven top class performance stallion himself who carries the best of pedigrees with his sire being the famous Dressman 1, Leilani stamps the qualities of her sire on to her progeny. In April, 2018 Leilani was awarded a Breeding Crown by the Australian Sports Pony Registry for the performance results of her progeny to date.

Her fifth foal was born November, 2018 and is by our new stallion, Numerus Clausus. His first crop of foals in Germany are proving to be modern and elegant types with long legs and good bodies. He is stamping his foals with a cadenced trot, ground covering canter and breeders are reporting very sweet characters and the resulting colt she produced has proven all that once again. Dynamik New Sensation has been sold to a fantastic home and will be raised by the Dynamik Stallions team until he is ready to go under saddle.

Leilani's sixth foal is due in November 2019 and is sired by Numerus Clausus and will be offered for sale.

# Delon Park Dream Catcher

**Brown Dun German Riding Pony cross**

**DOB : 18th November, 2015**

**Height : 14.3 hh (150 cms)**

Sire - FS Don't Worry Dam - NEP Feuerwerk

Breeder - Delon Park, Western Australia

Registered Australian Sports Pony Registry and ACE Group

*Dynamik Stallions purchased this special pony mare in 2018 from Delon Park.*

*Dream Catcher was assessed as a foal in 2016 and was awarded an Elite assessment with a score of 79% for conformation and 82% for her movement.*

*Dream Catcher's sire is the famous German Riding Pony stallion, FS Don't Worry and who is described as the Donnerhall of GRP's as he is a top producing sire of well performed sports ponies. Her dam is a compact mare standing at only 155 cms, despite her pedigree of warmblood and thoroughbred. NEP Feuerwerk is registered Hanoverian and was Premium assessed with the ACE Group. This mare has excellent expressive and cadenced paces under saddle with very good rideability. The dam sire is the highly successful Westphalian stallion Farewell III (Fidermark x Rosenkavalier).*

*Dream Catcher went under saddle in the Spring of 2018 at Stella Equestrian, ridden by Siri Spranz. Under saddle, this mare did not disappoint showing her excellent walk, cadenced trot and expressive canter. Best of all, Dream Catcher showed her exceptional rideability and her brave, honest nature.*

*Dream Catcher was in foal to Golden West on first attempt by frozen semen in late 2018, however she had twins and absorbed the remaining embryo. Now she is in foal to Golden West's paternal brother, our very own Golden Rock. Her foal is due in December 2019 and we are very excited to see what she produces.*

The Dynamik Stallions are bred at the Baldivis Veterinary Hospital. Chilled semen is shipped Australia wide and frozen semen is available at the Baldivis Veterinary Hospital or at Gene Movers in Victoria ready to be transported to your breeding vet.
